Hello Ms. Scholten

The City has checked with Councilmembers and Planning Commissioners to see whether they had any correspondence from their personal devices and the results are that there are no additional records to be produced in response to your public records act request. This completes the City's response to your PRA request. Please Let us know if there are any questions.

Thank you,

Hi Ms. Scholten,

The City had its IT department run a search for records from January 1, 2019 to present with search terms "Coastal Commission" and "North School" in the below listed custodians' email boxes:

Planning Commission

Michael Flaherty

Peter Hoffman

David Pederson

Marie Rice
Rob Saemann

City Council
Stacey Armato
Mary Campbell
Hany Fangary
Justin Massey
Jeff Duclos

City Manager
Suja Lowenthal

The search terms "Coastal Commission" and "North School" brought up a lot of communications that were not correspondence of City Council, City Planning Commissioners, or City Manager with the Coastal Commission. This accounts for the large amount of data that needed to be reviewed. I should clarify, however, that I improperly referenced 65g of data. There was actually 65 mg of data. I apologize for the confusion.

The City is checking with Councilmember and Planning Commissioners to see whether they have any correspondence from their personal devices. I will update you when I have that information. Please let me know if you would like the City to perform a search with any other search terms.

I apologize again for the length of time it took the City to respond to your request and appreciate your patience during the process.

Thank you so much,

Records Request

Thank you for this but I'm honestly quite baffled. I can't understand why this request took so long? And you quoted in another email that you had over 65g of information and all that was produced was these two emails? Can you please confirm these two emails make up ALL the correspondence as requested? Again the request was asking for " "All correspondence of city council, city manager and planning commissioners with the coast commission regarding north school since 1/1/19"

Thank you,
Becky Scholten

If we break apart the request can I get some information in the next 5 days? Can you please provide the communication between Coastal Commission and City Council first? Maybe if we break it down that will help. Seems this request is really taking longer than it should. Thank you!

Hello Ms. Scholten,

This email is in response to your Public Records Act ("PRA") Request received on 04/09/19. As we are compiling data and retrieving records, there is a substantial large amount of records to review. The City graciously requests more time to continue our efforts in reviewing and examining our records.

Therefore, due to the nature of the request, the City will need an additional 14 days to appropriately examine a voluminous amount of records, and will respond to your PRA Request on or before May 20, 2019.

Please let us know if you have any questions or concerns. Thank you so much for your patience.

Hello Ms. Scholten,

This email is in response to your Public Records Act ("PRA") Request received on April 09, 2019. Under the PRA, the City, on its own, may extend the 10-day response period for up to 14 additional days because of the need to search for and collect the requested records, search for, collect, and appropriately examine a voluminous amount of records, to consult with other agencies having a substantial interest in the request, or, in the case of electronic records, to extract and compile data.

Therefore, due to the nature of the request, the City will need additional time to search for and collect the requested records, and will respond to your PRA Request by May 03, 2019.

Please let us know if you have any questions or concerns. Thank you for your patience.
